NOTICE OF COMPLETION AND
ENVIRONMENTAL DOCUMENT TRANSMITTAL
SCH# 2010062060

Project Description:

The Draft Klamath Facilities Removal EIS/EIR evaluates the potential effects of removing four dams on the Klamath River, according to the Klamath Hydroelectric Settlement Agreement (KHSa). The KHSa establishes a process for a Secretarial Determination, which includes studies, environmental review, and a decision by the Secretary of the Interior regarding whether removal of J.C. Boyle, Copco 1, Copco 2, and Iron Gate Dams (1) will advance restoration of salmonid (salmon, steelhead, and trout) fisheries of the Klamath Basin, and (2) is in the public interest, which includes, but is not limited to, consideration of potential impacts on affected local communities and Tribes. The EIS/EIR also programmatically evaluates the potential effects of the Klamath Basin Restoration Agreement (KBRA). The KBRA includes interrelated plans and programs intended to benefit fisheries throughout the basin, water and power users in the Upper Klamath Basin, counties, Indian Tribes, and basin communities.
